ROHAN MEHTA

BACKEND SOFTWARE ENGINEER

PROFILE

Backend engineer with 2 years of experience creating Python and Flask services. Comfortable with PostgreSQL, MySQL, Git, Docker, Pytest and REST API testing.

WORK EXPERIENCE

Python Developer - BrightLayer Labs

Jul 2024 - Present

- Developed Flask REST APIs and integrated PostgreSQL and MySQL databases.
- Used Docker for consistent local and test environments.
- Reviewed code through Git and wrote Pytest unit tests.

PROJECT EXPERIENCE

Customer Support Ticket API

Built a Python Flask REST API with PostgreSQL for ticket creation, status tracking and role-based access. Packaged it with Docker, wrote Pytest tests and used Git for reviews.

ACADEMIC BACKGROUND

B.E. in Information Technology, Gujarat Technical University, 2024
