

CAREER OBJECTIVE

Junior developer seeking a Python backend role. One year of internship experience with Django, SQLite, Git and basic REST API development.

TECHNICAL PROFICIENCY

Category	Knowledge
Programming	Python, SQL, JavaScript
Frameworks	Django, Django REST Framework
Database	SQLite, basic PostgreSQL
Tools	Git, GitHub, Docker, Postman

EMPLOYMENT HISTORY

Software Development Intern - CodeBridge Academy

Jun 2025 - Jun 2026

- Created Django views and REST endpoints for an internal learning portal.
- Worked with SQLite and wrote basic SQL queries and unit tests.
- Used Git branches and pull requests for team collaboration.

ACADEMIC PROJECTS

- Library Management Portal - Developed a Django and SQLite REST application for book search, issue tracking and user login. Packaged the project with basic Docker settings.
